

FOR YOUR HANDS

The Complete Hand Cream

Hands endure rough treatment everyday, which can often give away your age when they look rough, cracked or dry. Also, with age, the back of the hands may appear bonier, veins may become more visible, and age spots frequently appear.

The Cream is quickly absorbed and is not sticky or greasy. Even after rinsing with water the hands will maintain their smooth and silky feeling for many hours. The Complete Hand Cream targets all these visible signs of aging as it:

- Smooths and softens
- Deeply moisturizes
- Reduces the appearance of fine lines and wrinkles on the back of the hands
- Reduces the appearance of brown spots

FOR YOUR FEET

The Complete Foot Cream

It's a complete treat for your feet! Formulated with a unique blend of naturally-derived ingredients, The Complete Foot Cream:

- Softens and soothes rough feet
- Revives tired feet
- Moisturizes cracked, dry feet
- Helps control foot odor
